June 6, 2012

Kevin Canfield  
Delta Centrifugal Corporation  
P.O. Box 1043  
Temple, TX 76503

Dear Mr. Canfield:

It is my pleasure to inform you that your worksite has qualified for an exemption from programmed OSHA inspections by virtue of your participation in the Safety and Health Achievement Recognition Program (SHARP). The enclosed certificate is presented in recognition of your successful completion of all requirements of this program, including the correction of all hazards identified during your onsite consultation survey and instituting an effective safety and health program.

While the certificate must be posted prominently next to the OSHA poster for the duration of the exemption period, please understand that this exemption does not preclude an OSHA compliance officer from visiting your premises to investigate formal complaints, fatalities, major accidents, referrals, or follow-ups on previously cited violations.

Assistant Secretary of Labor David Michaels has asked me to emphasize to you his conviction that worker safety and health carries with it the requirement of continued vigilance. He and I encourage you to continue your concern and action in safety and health, and to call on this office or the State Consultation Office at any time for whatever question you may have or assistance you may need.

This is to advise you that I have informed the appropriate Area Director to remove your worksite from the Programmed Inspection Schedule for one year from the date on your "Certificate of Recognition."

Sincerely,

  
John M. Hermanson  
Regional Administrator, Region VI
